**Subject:** Hi Dan, and thank you for your ACT Course for my daughter Thea

Dan, 2 years ago, our daughter Thea, took your course, and absolutely loved it. Going into your course she had an ACT of 21. Thea wanted to attend Luther College in Decorah Iowa. The 21 score qualified her for a \$10,000/ year scholarship, or \$40,000 over 4 years. Which is not bad.

After taking your course, and several other of your supplemental refresher courses, she was able to raise her ACT to I thought a 30, which qualified her for the Founders scholarship which is \$24,000/ year or \$96,000 over 4 years.

Thea attended your classes, studied your problem solving methods, and course work. I would estimate at least 10 hours a week. So over approximately 24 weeks, the \$56,000 difference amounted to an average tax free "wage" of over \$225 hour. That is amazing! That really helps.

Just an update, Thea first semester made the Dean's list, and the ACT score along with her GPA in high school enabled her to enroll in the scholars class, which she also totally loved. Various other opportunities are also opening up.

Dan, thanks. Your ACT class also helped her to focus her studying and enable better study habits. The proper habits can go a long, long way.

Thank You

Phillip
